

ENVIRONMENTAL POLICY STATEMENT

Issued 04/04/2023 – Review 03/04/2024

Established in 1993 Danhouse Security Ltd specialises in the provision of quality security services to the blue-chip facility management industry within the Southeast of England. This Policy Statement applies to all Danhouse Security Limited activities. This Policy Statement forms part of the Danhouse Security Limited Environmental Management System which is aligned to ISO 14001:2019 and which shall remain appropriate to the purpose and context of our business and support its strategic direction. This policy shall be communicated to all Interested Parties.

Danhouse Security Limited are committed to our Environmental Management System, we believe that this is necessary to achieve the required level of all Interested Parties needs and expectation and every undertaking is implemented through a Quality Management System to meet the parameters of ISO 14001:2019. The Policy outlines the commitment by the Company for continual improvement and effectiveness of actions. It is the policy of the Danhouse Security Limited to use all reasonable skill and care in every aspect of its services. Through the implementation of Environmental Management Systems which shall involve the use of systematic planned and cost-effective procedures that determine, assess, and achieve quality and value in compliance with the requirements and expectations of our Interested Parties.

The Environmental Management System has the support of the CEO, and it is a mandatory requirement that all personnel involved comply with the policies, systems and procedures defined therein. No deviation is permitted without the approval of the CEO, and he shall have the responsibility to maintain the necessary Environmental Management System. The Company's policy is to provide services of a standard of excellence which fully satisfy the requirements of all Interested Parties. This policy also includes continual improvements to the Management System and the need to prevent non-conformities.

The CEO will set the policies and quality objectives, ensure the resources needed to maintain its current performance and to achieve continual improvement. These objectives will be monitored for effectiveness and reviewed as required. These objectives will be defined in the context of Management Review process and progress is reported to relevant interested parties. The company will review and update of this Environmental Policy periodically or if there is any change in the context of the organization or the relevant requirements of the applicable interested party's change.

It is our policy to operate to all current employment legislation, health and safety requirements and the security industry codes of practice: BS 7499, BS 7984, and BS 7858. We operate in accordance with our quality management system compliant to BS EN ISO 9001:2019, We also recognise that even though our activities have minimal adverse impact on the environment we have a duty to protect it wherever we can and therefore we also commit ourselves to BS EN ISO 14001: 2019 & 45001.

The management of our company are fully committed to comply with applicable legal requirements and with other requirements to which the company subscribes which relate to its environmental aspects. All our employees are made fully aware during documented training of their responsibilities for the implementation of the environmental policy procedures. The employees understanding of the policy will be verified during Site visits and training reviews.

This Environmental Policy shall be communicated to all employees during induction training and a copy issued to all staff upon commencement of employment. It will be made available to all internal or external interested parties.

Measurable environmental objectives have been identified within all core areas of the business (Document QD.03 of the quality manual). We are committed to continual improvement and prevention of pollution and by carrying out internal audits and quality Management reviews we will monitor, measure, and establish new objectives appropriate to improving our service so it has a minimal adverse impact on the environment.
